Yudelson R: A method for retaining open bite cases. 1986; **89**:341 (Clin. corner)
——: Removable, nonremovable buccal bar. 1986; **89**:518-9 (Clin. corner)

Z

Zullo TG (*see* Robison et al). 1986; **89**:499-506
Zwemer TJ: Absorbed doses in the craniofacial region during various radiographic and radiotherapeutic procedures. 1986; **89**:527-8 (Abst.)
——: Association between tooth loss and TMJ dysfunction. 1986; **89**:447 (Abst.)
——: Bone healing stimulated by plasma factor XIII. Osteotomy experiments in sheep. 1986; **89**:526 (Abst.)
——: Craniofacial dysmorphology. 1986; **89**:446 (Book rev.)

——: Effect of myoelectric signal processing on the relationship between muscle force and processed EMG. 1986; **89**:525-6 (Abst.)
——: Effects on bone vascular interruption turnover and morphology in isotope-prelabeled rats. 1986; **89**:526 (Abst.)
——: Effects of prostaglandin E_2 and dental plaque on bone collagen and hyaluronic acid synthesis. 1986; **89**:527 (Abst.)
——: The eruption pattern of the permanent incisors and first permanent molars in *Australopithecus (Parathropus) robustus*. 1986; **89**:447 (Abst.)
——: New vistas in orthodontics. 1986; **89**:174-5 (Book rev.)
——: Observer performance in assessment of condylar position in temporomandibular joint radiograms. 1986; **89**:526-7 (Abst.)
——: Studies on immunologic and inflammatory factors in saliva and gingiva in patients with asthma. 1986; **89**:359 (Abst.)
——: Symptoms of TMJ dysfunction: Indicators of growth patterns? 1986; **89**:446-7 (Abst.)
——: Vascular reactions during electrical stimulation. Vital microscopy of the hamster cheek pouch and the rabbit tibia. 1986; **89**:527 (Abst.)

Subject index

A

Abstracts
Department of reviews and abstracts. 1986; **89**:85-6, 174-8, 267-8, 358-9, 446-7, 525-9

Acid etching; *see also* Etching
Crystal growth on the outer enamel surface—An alternative to acid etching (Maijer and Smith). 1986; **89**:183-93

Acquired immune deficiency syndrome
Dentists found at small risk to AIDS: LA task force. 1986; **89**:79-82 (Guest editorial)

Active Vertical Corrector
A clinical assessment of the Active Vertical Corrector: A non-surgical alternative for skeletal open bite treatment (Dellinger). 1986; **89**:428-37 (Clin. corner)

Adenoidectomy
Mandibular growth direction following adenoidectomy (Linder-Aronson et al). 1986; **89**:273-84

Adolescent
Reduction of deep overbite and associated changes in the facial skeleton. 1986; **89**:529 (Abst.)

Airway
A longitudinal cephalometric study of growth of the mandible in relation to nasorespiratory airway obstruction in unilateral and posterior cleft-palate patients. 1986; **89**:177 (Abst.)
Upper airway pressures during breathing: A comparison of normal and nasally incompetent subjects with modeling studies (Hinton et al). 1986; **89**:492-8

Allograft
Effects on bone vascular interruption turnover and morphology in isotope-prelabeled rats (Zwemer). 1986; **89**:526 (Abst.)

Allometry
Advances in primatology (Pilbeam). 1986; **89**:525 (Book rev.)

Alveolus
Reconstruction of alveolar width for orthodontic tooth movement: A case report (Kaminishi et al). 1986; **89**:342-5 (Case rep.)

American Board of Orthodontics
The American Board of Orthodontics—Then and now (Shepard). 1986; **89**:67-9
Early days, major problems, and gradual acceptance of the American Board of Orthodontics (Dewel). 1986; **89**:439-42 (ABO)

Anchorage
An appraisal of growth and reaction to extraoral anchorage (Teuscher). 1986; **89**:113-21

Angle
Statistical evaluation of torque angles in reference to straight-wire appliance (SWA) theories (Vardimon and Lambertz). 1986; **89**:56-66

Antegonial notch
The depth of the mandibular antegonial notch as an indicator of mandibular growth potential. 1986; **89**:528 (Abst.)

Appliance
The effects on the maxillary complex induced by the quad helix appliance (Graber). 1986; **89**:86 (Abst.)
Statistical evaluation of torque angles in reference to straight-wire appliance (SWA) theories (Vardimon and Lambertz). 1986; **89**:56-66

Arch
Evaluation of intrusive mechanics of the type "segmented arch" on a macerated human skull using the laser reflection technique and holographic interferometry (Dermaut and Vanden Bulcke). 1986; **89**:251-63
A longitudinal study of the occlusion and the dental arch dimensions in the cleft lip and/or palate patients. 1986; **89**:528-9 (Abst.)

Arch wire
Localized, transverse, flexural stiffness of continuous arch wires (Schaus and Nikolai). 1986; **89**:407-14

Artificial saliva
Comparative friction of orthodontic wires under dry and wet conditions (Stannard et al). 1986; **89**:485-91

Asymmetry
Moire topography of the face: Its application in measuring soft tissue asymmetries (Zwemer). 1986; **89**:177 (Abst.)

Australopithecus robustus
The eruption pattern of the permanent incisors and first permanent molars in *Australopithecus (Parathropus) robustus* (Zwemer). 1986; **89**:447 (Abst.)

Autograft
Effects on bone vascular interruption turnover and morphology in isotope-prelabeled rats (Zwemer). 1986; **89**:526 (Abst.)

Autopsy
Malocclusion associated with temporomandibular joint changes in young adults at autopsy (Solberg et al). 1986; **89**:326-30

Autotransplant
Influence of orthodontic treatment on root development of autotransplanted premolars (Lagerström and Kristerson). 1986; **89**:146-50

Auxiliary
A comparison of elastomeric auxiliaries versus elastic thread on premolar extraction site closure: An in vivo study (Sonis et al). 1986; **89**:73-8

B

Band
Retention of orthodontic bands with new fluoride-releasing cements (Norris et al). 1986; **89**:206-11
In vitro comparison of zinc phosphate and glass ionomer cements' ability to inhibit decalcification under orthodontic bands. 1986; **89**:528 (Abst.)

Bending
Localized, transverse, flexural stiffness of continuous arch wires (Schaus JG and Nikolai). 1986; **89**:407-14

January, pp. 1-90; February, pp. 91-182; March, pp. 183-272; April, pp. 273-362; May, pp. 363-452; June, pp. 453-548.

Bending test
Comparison of bending and tension tests for orthodontic wires (Asgharnia and Brantley). 1986; **89**:228-36
Beta titanium
Comparison of bending and tension tests for orthodontic wires (Asgharnia and Brantley). 1986; **89**:228-36
Bioelectric signal
Correlation of bioelectric signals to electrode placement in the rat periodontal ligament. 1986; **89**:177-8 (Abst.)
Biomechanics
Computer-aided modeling in the assessment of the biomechanical determinants of diverse skeletal patterns (Haskell et al). 1986; **89**:363-82
Bite
A clinical assessment of the Active Vertical Corrector: A non-surgical alternative for skeletal open bite treatment (Dellinger). 1986; **89**:428-37 (Clin. corner)
A method for retaining open bite cases (Yudelson). 1986; **89**:341 (Clin. corner)
Reduction of deep overbite and associated changes in the facial skeleton. 1986; **89**:529 (Abst.)
What is skeletal open bite? 1986; **89**:176 (Abst.)
Bonding; *see also* **Cement**
Bonding to porcelain and gold (Wood et al). 1986; **89**:194-205
Bonding characteristics of impacted versus erupted permanent teeth (Jacobs et al). 1986; **89**:242-5
Clinical results after direct bonding of brackets using shorter etching times (Carstensen). 1986; **89**:70-2
Crystal growth on the outer enamel surface—An alternative to acid etching (Maijer and Smith). 1986; **89**:183-93
An in vitro evaluation of a visible light-cured resin as an alternative to conventional resin bonding systems. 1986; **89**:268 (Abst.)
An in vitro investigation of lingual bonding. 1986; **89**:529 (Abst.)
Shear strength of brackets bonded to anterior and posterior teeth (Knoll et al). 1986; **89**:476-9
Bone
Bone healing stimulated by plasma factor XIII: Osteotomy experiments in sheep (Zwemer). 1986; **89**:526 (Abst.)
Effects of prostaglandin E_2 and dental plaque on bone collagen and hyaluronic acid synthesis (Zwemer). 1986; **89**:527 (Abst.)
Effects on bone vascular interruption turnover and morphology in isotope-prelabeled rats (Zwemer). 1986; **89**:526 (Abst.)
Book reviews
Book reviews. 1986; **89**:85-6, 174-8, 267-8, 358-9, 446-7, 525-9, 525-9
Bovine enamel
Toothbrush resistance and fluoride retention of sound, etched, fluoridated, and remineralized bovine enamel (Valk et al). 1986; **89**:298-301
Bracket
Clinical results after direct bonding of brackets using shorter etching times (Carstensen). 1986; **89**:70-2
Electrothermal debracketing. Part I. An in vitro study (Sheridan et al). 1986; **89**:21-7
Electrothermal debracketing. Part II. An in vivo study (Sheridan et al). 1986; **89**:141-5
An in vitro investigation of lingual bonding. 1986; **89**:529 (Abst.)
Shear strength of brackets bonded to anterior and posterior teeth (Knoll et al). 1986; **89**:476-9
Breathing; *see* **Respiration**
James Edward Brophy
James E. Brophy, 1921-1985 (Wolfe) (Letter). 1986; **89**:522
A profile of accomplishment: James Edward Brophy (Shepard). 1986; **89**:91-4 (In memoriam)
Buccal bar
Removable, nonremovable buccal bar (Yudelson). 1986; **89**:518-9 (Clin. corner)

C

Canine
A post-orthodontic evaluation of treated palatally impacted canines. 1986; **89**:178 (Abst.)
Cartilage
Cartilage. Vol. 1: Structure, function, and biochemistry. Vol. 2: Development, differentiation, and growth. Vol. 3: Biomedical aspects (Marks Jr). 1986; **89**:175 (Book rev.)
Cement; *see also* **Bonding**
In vitro comparison of zinc phosphate and glass ionomer cements' ability to inhibit decalcification under orthodontic bands. 1986; **89**:528 (Abst.)
Retention of orthodontic bands with new fluoride-releasing cements (Norris et al). 1986; **89**:206-11
Cephalometrics
A longitudinal cephalometric study of growth of the mandible in relation to nasorespiratory airway obstruction in unilateral and posterior cleft-palate patients. 1986; **89**:177 (Abst.)
The mandible in mandibulofacial dysostosis: A cephalometric study (Grayson et al). 1986; **89**:393-8
Relationship of skeletal pattern and nasal form (Robison et al). 1986; **89**:499-506
Variations in skeletal and dental patterns in patients with structural and functional alterations of the temporomandibular joint: A preliminary report (Stringert and Worms). 1986; **89**:285-97
Child
Inital displacements and variations of eight human child skulls owing to high-pull headgear traction determined with laser holography (Kragt et al). 1986; **89**:399-406
A longitudinal study of the occlusion and the dental arch dimensions in the cleft lip and/or palate patients. 1986; **89**:528-9 (Abst.)
The morphology of the potential Class III skeletal pattern in the growing child (Williams and Andersen). 1986; **89**:302-11
Chin
Simultaneous repositioning of the maxilla, mandible, and chin (Bell et al). 1986; **89**:28-50
Class II, Division 1 malocclusion
The effect of two contrasting forms of orthodontic treatment on the facial profile (Looi and Mills). 1986; **89**:507-17 (Special art.)
Light-wire treatment of a Class II, Division 1 subdivision malocclusion (Kelly). 1986; **89**:223-7 (ABO case rep.)
Class III skeletal pattern
The morphology of the potential Class III skeletal pattern in the growing child (Williams and Andersen). 1986; **89**:302-11
Cleft lip
A longitudinal study of the occlusion and the dental arch dimensions in the cleft lip and/or palate patients. 1986; **89**:528-9 (Abst.)
Cleft palate
A longitudinal cephalometric study of growth of the mandible in relation to nasorespiratory airway obstruction in unilateral and posterior cleft-palate patients. 1986; **89**:177 (Abst.)
A longitudinal study of the occlusion and the dental arch dimensions in the cleft lip and/or palate patients (Athanasiou). 1986; **89**:528-9 (Abst.)

Clinicians' corner
Clinicians' corner. 1986; **89**:341, 518-9
Cobalt-chromium-nickel
Comparison of bending and tension tests for orthodontic wires (Asgharnia and Brantley). 1986; **89**:228-36
Collagen
Effects of prostaglandin E_2 and dental plaque on bone collagen and hyaluronic acid synthesis (Zwemer). 1986; **89**:527 (Abst.)
Communicable disease
Legal implications of treating victims of communicable diseases. 1986; **89**:85
Computer
Computer-aided modeling in the assessment of the biomechanical determinants of diverse skeletal patterns (Haskell et al). 1986; **89**:363-82
Computer-assisted instruction in mixed dentition analysis. 1986; **89**:267-8 (Abst.)
Condyle
Observer performance in assessment of condylar position in temporomandibular joint radiograms (Zwemer). 1986; **89**:526-7 (Abst.)
Corrector
A clinical assessment of the Active Vertical Corrector: A nonsurgical alternative for skeletal open bite treatment (Dellinger). 1986; **89**:428-37 (Clin. corner)
Correspondence
Letters to the editor. 1986; **89**:83-4, 173, 522
Craniofacial development
Craniofacial dysmorphology (Zwemer). 1986; **89**:446 (Book rev.)
Growth changes in head posture related to craniofacial development (Solow and Siersbæk-Nielsen). 1986; **89**:132-40
Roentgen stereophotogrammetry for analysis of cranial growth (Selvik et al). 1986; **89**:315-25
Crown
Clinical crown length and reduction in overjet, overbite, and dental height with orthodontic treatment (Abdel-Kader). 1986; **89**:246-5033
Crystal
Crystal growth on the outer enamel surface—An alternative to acid etching (Maijer and Smith). 1986; **89**:183-93
Cyclic jaw movement
Masticatory muscle activity and hyoid bone behavior during cyclic jaw movements in man (Pancherz et al). 1986; **89**:122-31

D

Debracketing
Electrothermal debracketing. Part I. An in vitro study (Sheridan et al). 1986; **89**:21-7
Electrothermal debracketing. Part II. An in vivo study (Sheridan et al). 1986; **89**:141-5
Decalcification
In vitro comparison of zinc phosphate and glass ionomer cements' ability to inhibit decalcification under orthodontic bands. 1986; **89**:528 (Abst.)
Retention of orthodontic bands with new fluoride-releasing cements (Norris et al). 1986; **89**:206-11
Delegation
Delegation of duties (Blair). 1986; **89**:355-6 (Guest editorial)
Dental care
Future demands for dental care (Dugoni). 1986; **89**:520-1 (Guest editorial)
Dental height
Clinical crown length and reduction in overjet, overbite, and dental height with orthodontic treatment (Abdel-Kader). 1986; **89**:246-50
Dental plaque
Effects of prostaglandin E_2 and dental plaque on bone collagen and hyaluronic acid synthesis (Zwemer). 1986; **89**:527 (Abst.)
Department of reviews and abstracts
Department of reviews and abstracts. 1986; **89**:85-6, 174-8, 267-8, 358-9, 446-7, 525-9
Differential diagnosis
Differential diagnosis and treatment planning for the adult nonsurgical orthodontic patient (Alexander et al). 1986; **89**:95-112
Dysmorphology
Craniofacial dysmorphology (Zwemer). 1986; **89**:446 (Book rev.)
Dysostosis
The mandible in mandibulofacial dysostosis: A cephalometric study (Grayson). 1986; **89**:393-8

E

Editorial
Guest editorial. 1986; **89**:79-82, 171-2, 264-5, 355-6, 443-5, 520-1
Elastic bending
Localized, transverse, flexural stiffness of continuous arch wires (Schaus and Nikolai). 1986; **89**:407-14
Elastic thread
A comparison of elastomeric auxiliaries versus elastic thread on premolar extraction site closure: An in vivo study (Sonis et al). 1986; **89**:73-8
Elastomeric auxiliary
A comparison of elastomeric auxiliaries versus elastic thread on premolar extraction site closure: An in vivo study (Sonis et al). 1986; **89**:73-8
Electrical stimulation
Vascular reactions during electrical stimulation: Vital microscopy of the hamster cheek pouch and the rabbit tibia (Zwemer). 1986; **89**:527 (Abst.)
Electrodes
Correlation of bioelectric signals to electrode placement in the rat periodontal ligament. 1986; **89**:177-8 (Abst.)
Electromyography
Effect of myoelectric signal processing on the relationship between muscle force and processed EMG (Zwemer). 1986; **89**:525-6 (Abst.)
Masticatory muscle activity and hyoid bone behavior during cyclic jaw movements in man (Pancherz et al). 1986; **89**:122-31
Electrothermal debracketing
Electrothermal debracketing. Part I. An in vitro study (Sheridan et al). 1986; **89**:21-7
Electrothermal debracketing. Part II. An in vivo study (Sheridan et al). 1986; **89**:141-5
Elgiloy
Comparison of bending and tension tests for orthodontic wires (Asgharnia and Brantley). 1986; **89**:228-36
Enamel
Crystal growth on the outer enamel surface—An alternative to acid etching (Maijer and Smith). 1986; **89**:183-93
Retention of orthodontic bands with new fluoride-releasing cements (Norris et al). 1986; **89**:206-11
Toothbrush resistance and fluoride retention of sound, etched, fluoridated, and remineralized bovine enamel (Valk et al). 1986; **89**:298-301

Eruption
Bonding characteristics of impacted versus erupted permanent teeth (Jacobs et al). 1986; **89**:242-533
The eruption pattern of the permanent incisors and first permanent molars in *Australopithecus (Parathropus) robustus* (Zwemer). 1986; **89**:447 (Abst.)
Harold A. Eskew (1918-1985)
Harold A. Eskew (1918-1985) (Callery). 1986; **89**:523 (In memoriam)
Esthetics
A simple procedure to assess esthetic preference for dentofacial treatment (Cohn et al). 1986; **89**:223-7
Etching
Clinical results after direct bonding of brackets using shorter etching times (Carstensen). 1986; **89**:70-2
Crystal growth on the outer enamel surface—An alternative to acid etching (Maijer and Smith). 1986; **89**:183-93
Toothbrush resistance and fluoride retention of sound, etched, fluoridated, and remineralized bovine enamel (Valk et al). 1986; **89**:298-301
Extraction
A comparison of elastomeric auxiliaries versus elastic thread on premolar extraction site closure: An in vivo study (Sonis et al). 1986; **89**:73-8
Second molar extractions: A review (Bishara and Burkey). 1986; **89**:415-24 (Rev. art.)
Extraoral anchorage
An appraisal of growth and reaction to extraoral anchorage (Teuscher). 1986; **89**:113-21
Extrusive force
Tissue reaction following application of extrusive and intrusive forces to teeth in adult monkeys (Melsen). 1986; **89**:469-75
Eye
Severe ocular injuries from headgear (Holland et al). 1986; **89**:173 (Letter)

F

Face
The effect of two contrasting forms of orthodontic treatment on the facial profile (Looi and Mills). 1986; **89**:507-17
Moire topography of the face: Its application in measuring soft tissue asymmetries. 1986; **89**:177 (Abst.)
Reduction of deep overbite and associated changes in the facial skeleton. 1986; **89**:529 (Abst.)
Factor XIII
Bone healing stimulated by plasma factor XIII: Osteotomy experiments in sheep (Zwemer). 1986; **89**:526 (Abst.)
Fiberotomy
The effect of gingival fiberotomy on the rate of tooth movement (Tuncay and Killiany). 1986; **89**:212-5
First permanent molar
The eruption pattern of the permanent incisors and first permanent molars in *Australopithecus (Parathropus) robustus* (Zwemer). 1986; **89**:447 (Abst.)
Fluoride
Retention of orthodontic bands with new fluoride-releasing cements (Norris et al). 1986; **89**:206-11
Toothbrush resistance and fluoride retention of sound, etched, fluoridated, and remineralized bovine enamel (Valk et al). 1986; **89**:298-301
Fluorography
Masticatory muscle activity and hyoid bone behavior during cyclic jaw movements in man (Pancherz et al). 1986; **89**:122-31
Fracture
Bone healing stimulated by plasma factor XIII. Osteotomy experiments in sheep (Zwemer). 1986; **89**:526 (Abst.)
Friction
Comparative friction of orthodontic wires under dry and wet conditions (Stannard et al). 1986; **89**:485-91
Future
Future demands for dental care (Dugoni). 1986; **89**:520-1 (Guest editorial)

G

Genetics
Patterns of human heredity: An introduction to human genetics (Jones). 1986; **89**:175-6 (Book rev.)
Gingiva
The effect of gingival fiberotomy on the rate of tooth movement (Tuncay and Killiany). 1986; **89**:212-5
Glass ionomer
In vitro comparison of zinc phosphate and glass ionomer cements' ability to inhibit decalcification under orthodontic bands. 1986; **89**:528 (Abst.)
Gold
Bonding to porcelain and gold (Wood et al). 1986; **89**:194-205
Graft
Effects on bone vascular interruption turnover and morphology in isotope-prelabeled rats (Zwemer). 1986; **89**:526 (Abst.)
Growth
An appraisal of growth and reaction to extraoral anchorage (Teuscher). 1986; **89**:113-21
Cartilage. Vol. 1: Structure, function, and biochemistry. Vol. 2: Development, differentiation, and growth. Vol. 3: Biomedical aspects (Marks). 1986; **89**:175 (Book rev.)
The depth of the mandibular antegonial notch as an indicator of mandibular growth potential. 1986; **89**:528 (Abst.)
Growth of the mandible (Graber). 1986; **89**:85-6 (Abst.)
Growth changes in head posture related to craniofacial development (Solow and Siersbæk-Nielsen). 1986; **89**:132-40
A longitudinal cephalometric study of growth of the mandible in relation to nasorespiratory airway obstruction in unilateral and posterior cleft-palate patients. 1986; **89**:177 (Abst.)
Mandibular growth direction following adenoidectomy (Linder-Aronson et al). 1986; **89**:273-84
The morphology of the potential Class III skeletal pattern in the growing child (Williams and Andersen). 1986; **89**:302-11
Roentgen stereophotogrammetry for analysis of cranial growth (Selvik et al). 1986; **89**:315-25
Symptoms of TMJ dysfunction: Indicators of growth patterns? (Zwemer) 1986; **89**:446-7 (Abst.)
Guest editorial
Guest editorial. 1986; **89**:79-82, 171-2, 264-5, 355-6, 443-5, 520-1

H

Hamster
Vascular reactions during electrical stimulation: Vital microscopy of the hamster cheek pouch and the rabbit tibia (Zwemer). 1986; **89**:527 (Abst.)
Headgear
Inital displacements and variations of eight human child skulls owing to high-pull headgear traction determined with laser holography (Kragt et al). 1986; **89**:399-406

Severe ocular injuries from headgear (Holland et al). 1986; 89:173 (Letter)

Healing
Bone healing stimulated by plasma factor XIII: Osteotomy experiments in sheep (Zwemer). 1986; 89:526 (Abst.)

Height
Clinical crown length and reduction in overjet, overbite, and dental height with orthodontic treatment (Abdel-Kader). 1986; 89:246-50

Heredity
Patterns of human heredity: An introduction to human genetics (Jones). 1986; 89:175-6 (Book rev.)

Holography
Evaluation of intrusive mechanics of the type "segmented arch" on a macerated human skull using the laser reflection technique and holographic interferometry (Dermaut and Vanden Bulcke). 1986; 89:251-63
Inital displacements and variations of eight human child skulls owing to high-pull headgear traction determined with laser holography (Kragt et al). 1986; 89:399-406

Hyaluronic acid
Effects of prostaglandin E_2 and dental plaque on bone collagen and hyaluronic acid synthesis (Zwemer). 1986; 89:527 (Abst.)

Hyoid bone
Masticatory muscle activity and hyoid bone behavior during cyclic jaw movements in man (Pancherz et al). 1986; 89:122-31

I

Immune deficiency
Dentists found at small risk to AIDS: LA task force. 1986; 89:79-82 (Guest editorial)

Impaction
Bonding characteristics of impacted versus erupted permanent teeth (Jacobs et al). 1986; 89:242-533
A post-orthodontic evaluation of treated palatally impacted canines. 1986; 89:178 (Abst.)

In memoriam
In memoriam. 1986; 89:91-4, 357, 523-4

Incisor
The eruption pattern of the permanent incisors and first permanent molars in *Australopithecus (Parathropus) robustus* (Zwemer). 1986; 89:447 (Abst.)
Root resorption in maxillary central incisors following active orthodontic treatment (Copeland and Green). 1986; 89:51-5
Shear strength of brackets bonded to anterior and posterior teeth (Knoll et al). 1986; 89:476-9

Indomethacin
The effect of indomethacin (an aspirin-like drug) on the rate of orthodontic tooth movement (Chumbley and Tuncay). 1986; 89:312-4

Inductive plethysmography
Measurement of nasal and oral respiration using inductive plethysmography (Warren et al). 1986; 89:480-4

Injury
Activation of the vascular system: A main mediator of periodontal fiber remodeling in orthodontic tooth movement (Rygh et al). 1986; 89:453-68
Severe ocular injuries from headgear (Holland et al). 1986; 89:173 (Letter)

Interferometry
Evaluation of intrusive mechanics of the type "segmented arch" on a macerated human skull using the laser reflection technique and holographic interferometry (Dermaut and Vanden Bulcke). 1986; 89:251-63

International Journal of Orthodontia
The *International Journal of Orthodontia*, Volume I: Reprise (Shepard). 1986; 89:437-8 (Special art.)

Intrusive force
Tissue reaction following application of extrusive and intrusive forces to teeth in adult monkeys (Melsen). 1986; 89:469-75

J

Jaw
Die plattenapparatur in der kieferorthopadie (Removable appliance in jaw orthopedics) (Moorrees). 1986; 89:267 (Book rev.)
Masticatory muscle activity and hyoid bone behavior during cyclic jaw movements in man (Pancherz et al). 1986; 89:122-31

Journal
The *International Journal of Orthodontia*, Volume I: Reprise (Shepard). 1986; 89:437-8 (Special art.)
The Journal and the metric system (Dewel). 1986; 89:264-5 (Guest editorial)

L

Laser
Evaluation of intrusive mechanics of the type "segmented arch" on a macerated human skull using the laser reflection technique and holographic interferometry (Dermaut and Vanden Bulcke). 1986; 89:251-63
Inital displacements and variations of eight human child skulls owing to high-pull headgear traction determined with laser holography (Kragt et al). 1986; 89:399-406

Legal implications
Legal implications of treating victims of communicable diseases. 1986; 89:85
Litagation (Berry). 1986; 89:352 (Special art.)

Letters
Letters to the editor. 1986; 89:83-4, 173, 522
The postorthodontic treatment letter (Rouff). 1986; 89:425-7 (Clin. corner)

Ligament
Activation of the vascular system: A main mediator of periodontal fiber remodeling in orthodontic tooth movement (Rygh et al). 1986; 89:453-68
Correlation of bioelectric signals to electrode placement in the rat periodontal ligament. 1986; 89:177-8 (Abst.)

Light-cured resin
An in vitro evaluation of a visible light–cured resin as an alternative to conventional resin bonding systems. 1986; 89:268 (Abst.)

Light-wire
Light-wire treatment of a Class II, Division 1 subdivision malocclusion (Kelly). 1986; 89:216-22 (ABO case rep.)

Lingual bonding
An in vitro investigation of lingual bonding. 1986; 89:529 (Abst.)

Lips
The effect of two contrasting forms of orthodontic treatment on the facial profile (Looi and Mills). 1986; 89:507-17 (Special art.)

Litigation; *see* Legal implications

M

Macrophage
Activation of the vascular system: A main mediator of periodontal fiber remodeling in orthodontic tooth movement (Rygh et al). 1986; 89:453-68

Malocclusion
The effect of two contrasting forms of orthodontic treatment on the facial profile (Looi and Mills). 1986; **89**:507-17 (Special art.)
Light-wire treatment of a Class II, Division 1 subdivision malocclusion (Kelly). 1986; **89**:216-22 (ABO case rep.)
Malocclusion associated with temporomandibular joint changes in young adults at autopsy (Solberg et al). 1986; **89**:326-30
Reduction of deep overbite and associated changes in the facial skeleton. 1986; **89**:529 (Abst.)
Mandible
The depth of the mandibular antegonial notch as an indicator of mandibular growth potential. 1986; **89**:528 (Abst.)
Growth of the mandible (Graber). 1986; **89**:85-6 (Abst.)
A longitudinal cephalometric study of growth of the mandible in relation to nasorespiratory airway obstruction in unilateral and posterior cleft-palate patients. 1986; **89**:177 (Abst.)33
The mandible in mandibulofacial dysostosis: A cephalometric study (Grayson). 1986; **89**:393-8
Mandibular growth direction following adenoidectomy (Linder-Aronson et al). 1986; **89**:273-84
Mandibular molar displacement secondary to the use of forces to retract the maxilla (Ben-Bassat et al). 1986; **89**:1-12
Simultaneous repositioning of the maxilla, mandible, and chin (Bell et al). 1986; **89**:28-50
Mandibulofacial dysostosis
The mandible in mandibulofacial dysostosis: A cephalometric study (Grayson). 1986; **89**:393-8
Mastication
Masticatory muscle activity and hyoid bone behavior during cyclic jaw movements in man (Pancherz et al). 1986; **89**:122-31
Maxilla
The effects on the maxillary complex induced by the quad helix appliance (Graber). 1986; **89**:86 (Abst.)
Mandibular molar displacement secondary to the use of forces to retract the maxilla (Ben-Bassat et al). 1986; **89**:1-12
Root resorption in maxillary central incisors following active orthodontic treatment (Copeland and Green). 1986; **89**:51-5
Simultaneous repositioning of the maxilla, mandible, and chin (Bell et al). 1986; **89**:28-50
The soft underbelly or RME revisited (Timms). 1986; **89**:443-5 (Guest editorial)
Metric system
The Journal and the metric system (Dewel). 1986; **89**:264-5 (Guest editorial)
Mixed dentition
Computer-assisted instruction in mixed dentition analysis. 1986; **89**:267-8 (Abst.)
Moire topography
Moire topography of the face: Its application in measuring soft tissue asymmetries. 1986; **89**:177 (Abst.)
Molar
The eruption pattern of the permanent incisors and first permanent molars in *Australopithecus (Parathropus) robustus* (Zwemer). 1986; **89**:447 (Abst.)
Mandibular molar displacement secondary to the use of forces to retract the maxilla (Ben-Bassat et al). 1986; **89**:1-12
Second molar extractions: A review (Bishara and Burkey). 1986; **89**:415-24 (Rev. art.)
Shear strength of brackets bonded to anterior and posterior teeth (Knoll et al). 1986; **89**:476-9
Monkey
Tissue reaction following application of extrusive and intrusive forces to teeth in adult monkeys (Melsen). 1986; **89**:469-75
Muscle force
Effect of myoelectric signal processing on the relationship between muscle force and processed EMG (Zwemer). 1986; **89**:525-6 (Abst.)
Myoelectric signal processing
Effect of myoelectric signal processing on the relationship between muscle force and processed EMG (Zwemer). 1986; **89**:525-6 (Abst.)
Myography
Masticatory muscle activity and hyoid bone behavior during cyclic jaw movements in man (Pancherz et al). 1986; **89**:122-31

N

Nasal incompetence; *see also* Respiration
Upper airway pressures during breathing: A comparison of normal and nasally incompetent subjects with modeling studies (Hinton et al). 1986; **89**:492-8
Nasal respiration; *see* Respiration
Nitinol
Comparison of bending and tension tests for orthodontic wires (Asgharnia and Brantley). 1986; **89**:228-36
Nose; *see also* Respiration
A longitudinal cephalometric study of growth of the mandible in relation to nasorespiratory airway obstruction in unilateral and posterior cleft-palate patients. 1986; **89**:177 (Abst.)
Relationship of skeletal pattern and nasal form (Robison et al). 1986; **89**:499-506
Nutrition
Advances in nutritional research (vol. 6) (Forbes). 1986; **89**:176 (Book rev.)

O

Obituary
In memoriam. 1986; **89**:91-4, 357, 523-4
Obstruction
A longitudinal cephalometric study of growth of the mandible in relation to nasorespiratory airway obstruction in unilateral and posterior cleft-palate patients. 1986; **89**:177 (Abst.)
Upper airway pressures during breathing: A comparison of normal and nasally incompetent subjects with modeling studies (Hinton et al). 1986; **89**:492-8
Ocular injury
Severe ocular injuries from headgear (Holland et al). 1986; **89**:173 (Letter)
Open bite
A clinical assessment of the Active Vertical Corrector: A non-surgical alternative for skeletal open bite treatment (Dellinger). 1986; **89**:428-37 (Clin. corner)
A method for retaining open bite cases (Yudelson). 1986; **89**:341 (Clin. corner)
What is skeletal open bite? 1986; **89**:176 (Abst.)
Oral respiration
Measurement of nasal and oral respiration using inductive plethysmography (Warren et al). 1986; **89**:480-4
Upper airway pressures during breathing: A comparison of normal and nasally incompetent subjects with modeling studies (Hinton et al). 1986; **89**:492-8

Orthodontics
Early days, major problems, and gradual acceptance of the American Board of Orthodontics (Dewel). 1986; **89**:439-42 (Special art.)
New vistas in orthodontics (Zwemer). 1986; **89**:174-5 (Book rev.)
Orthognathic surgery
The effects of orthognathic surgery on speech production (Ruscello et al). 1986; **89**:237-41
Osteotomy
Bone healing stimulated by plasma factor XIII. Osteotomy experiments in sheep (Zwemer). 1986; **89**:526 (Abst.)
Overbite
Clinical crown length and reduction in overjet, overbite, and dental height with orthodontic treatment (Abdel-Kader). 1986; **89**:246-50
Reduction of deep overbite and associated changes in the facial skeleton. 1986; **89**:529 (Abst.)
Overjet
Clinical crown length and reduction in overjet, overbite, and dental height with orthodontic treatment (Abdel-Kader). 1986; **89**:246-50

P

Palate
A longitudinal cephalometric study of growth of the mandible in relation to nasorespiratory airway obstruction in unilateral and posterior cleft-palate patients. 1986; **89**:177 (Abst.)
A post-orthodontic evaluation of treated palatally impacted canines. 1986; **89**:178 (Abst.)
Pearson product-moment correlation coefficient
Relationship of skeletal pattern and nasal form (Robison et al). 1986; **89**:499-506
Periodontal ligament
Activation of the vascular system: A main mediator of periodontal fiber remodeling in orthodontic tooth movement (Rygh et al). 1986; **89**:453-68
Correlation of bioelectric signals to electrode placement in the rat periodontal ligament. 1986; **89**:177-8 (Abst.)
Permanent molar
The eruption pattern of the permanent incisors and first permanent molars in *Australopithecus (Parathropus) robustus* (Zwemer). 1986; **89**:447 (Abst.)
Permanent tooth
Bonding characteristics of impacted versus erupted permanent teeth (Jacobs et al). 1986; **89**:242-5
The eruption pattern of the permanent incisors and first permanent molars in *Australopithecus (Parathropus) robustus* (Zwemer). 1986; **89**:447 (Abst.)
Personality
Personality characteristics as predictors and sequelae of surgical and conventional orthodontics (Kiyak et al). 1986; **89**:383-92
Phosphoric acid
Crystal growth on the outer enamel surface—An alternative to acid etching (Maijer and Smith). 1986; **89**:183-93
Photograph
The postorthodontic treatment letter (Rouff). 1986; **89**:425-7 (Clin. corner)
Plaque
Effects of prostaglandin E_2 and dental plaque on bone collagen and hyaluronic acid synthesis (Zwemer). 1986; **89**:527 (Abst.)
Plasma factor XIII
Bone healing stimulated by plasma factor XIII. Osteotomy experiments in sheep (Zwemer). 1986; **89**:526 (Abst.)
Plasticity
On the nature of human plasticity (Keil). 1986; **89**:525 (Book rev.)
Plethysmography
Measurement of nasal and oral respiration using inductive plethysmography (Warren et al). 1986; **89**:480-4
Pneumotachography
Measurement of nasal and oral respiration using inductive plethysmography (Warren et al). 1986; **89**:480-4
Porcelain
Bonding to porcelain and gold (Wood et al). 1986; **89**:194-205
Postorthodontic treatment letter
The postorthodontic treatment letter (Rouff). 1986; **89**:425-7 (Clin. corner)
Posture
Growth changes in head posture related to craniofacial development (Solow and Siersbæk-Nielsen). 1986; **89**:132-40
Premolar
A comparison of elastomeric auxiliaries versus elastic thread on premolar extraction site closure: An in vivo study (Sonis et al). 1986; **89**:73-8
Influence of orthodontic treatment on root development of autotransplanted premolars (Lagerström and Kristerson). 1986; **89**:146-50
Primatology
Advances in primatology (Pilbeam). 1986; **89**:525 (Book rev.)
Professionalism
Professionalism in orthodontics (Weber). 1986; **89**:171-2 (Guest editorial)
Profile
The effect of two contrasting forms of orthodontic treatment on the facial profile (Looi and Mills). 1986; **89**:507-17 (Special art.)
Prostaglandin
The effect of indomethacin (an aspirin-like drug) on the rate of orthodontic tooth movement (Chumbley and Tuncay). 1986; **89**:312-4
Effects of prostaglandin E_2 and dental plaque on bone collagen and hyaluronic acid synthesis (Zwemer). 1986; **89**:527 (Abst.)

Q

Quad helix appliance
The effects on the maxillary complex induced by the quad helix appliance (Graber). 1986; **89**:86 (Abst.)
Quadrilateral analysis
More on the quadrilateral analysis (Nieberg). 1986; **89**:83-4 (Letter)

R

Rabbit
Vascular reactions during electrical stimulation: Vital microscopy of the hamster cheek pouch and the rabbit tibia (Zwemer). 1986; **89**:527 (Abst.)
Radiography
Absorbed doses in the craniofacial region during various radiographic and radiotherapeutic procedures (Zwemer). 1986; **89**:527-8 (Abst.)
Observer performance in assessment of condylar position in temporomandibular joint radiograms (Zwemer). 1986; **89**:526-7 (Abst.)
Radiotherapy
Absorbed doses in the craniofacial region during various radiographic and radiotherapeutic procedures (Zwemer). 1986; **89**:527-8 (Abst.)

Rapid maxillary expansion
The soft underbelly or RME revisited (Timms). 1986; **89**:443-5 (Guest editorial)
Rat
Activation of the vascular system: A main mediator of periodontal fiber remodeling in orthodontic tooth movement (Rygh et al). 1986; **89**:453-68
Correlation of bioelectric signals to electrode placement in the rat periodontal ligament. 1986; **89**:177-8 (Abst.)
Effects on bone vascular interruption turnover and morphology in isotope-prelabeled rats (Zwemer). 1986; **89**:526 (Abst.)
Reconstruction
Reconstruction of alveolar width for orthodontic tooth movement: A case report (Kaminishi et al). 1986; **89**:342-5 (Case rep.)
Remineralization
Toothbrush resistance and fluoride retention of sound, etched, fluoridated, and remineralized bovine enamel (Valk et al). 1986; **89**:298-301
Research
Advances in nutritional research (vol. 6) (Forbes). 1986; **89**:176 (Book rev.)
Research abstracts. 1986; **89**:176-8, 267-8, 528-9
Resin
An in vitro evaluation of a visible light–cured resin as an alternative to conventional resin bonding systems. 1986; **89**:268 (Abst.)
Resorption
Idiopathic resorption of teeth (George Jr and Miller). 1986; **89**:13-20
Root resorption in maxillary central incisors following active orthodontic treatment (Copeland and Green). 1986; **89**:51-5
Respiration
A longitudinal cephalometric study of growth of the mandible in relation to nasorespiratory airway obstruction in unilateral and posterior cleft-palate patients. 1986; **89**:177 (Abst.)
Measurement of nasal and oral respiration using inductive plethysmography (Warren et al). 1986; **89**:480-4
Upper airway pressures during breathing: A comparison of normal and nasally incompetent subjects with modeling studies (Hinton et al). 1986; **89**:492-8
Retraction
Mandibular molar displacement secondary to the use of forces to retract the maxilla (Ben-Bassat et al). 1986; **89**:1-12
Reviews
Department of reviews and abstracts. 1986; **89**:85-6, 174-8, 267-8, 358-9, 446-7, 525-9
Roentgen stereophotogrammetry; *see also* **Radiography**
Roentgen stereophotogrammetry for analysis of cranial growth (Selvik et al). 1986; **89**:315-25
Root
Influence of orthodontic treatment on root development of autotransplanted premolars (Lagerström and Kristerson). 1986; **89**:146-50
Root resorption in maxillary central incisors following active orthodontic treatment (Copeland and Green). 1986; **89**:51-5

S

Saliva
Comparative friction of orthodontic wires under dry and wet conditions (Stannard et al). 1986; **89**:485-91
Second molar
Second molar extractions: A review (Bishara and Burkey). 1986; **89**:415-24 (Rev. art.)
Segmented arch
Evaluation of intrusive mechanics of the type "segmented arch" on a macerated human skull using the laser reflection technique and holographic interferometry (Dermaut and Vanden Bulcke). 1986; **89**:251-63
Shear strength
Shear strength of brackets bonded to anterior and posterior teeth (Knoll et al). 1986; **89**:476-9
Sheep
Bone healing stimulated by plasma factor XIII: Osteotomy experiments in sheep (Zwemer). 1986; **89**:526 (Abst.)
Signal processing
Effect of myoelectric signal processing on the relationship between muscle force and processed EMG (Zwemer). 1986; **89**:525-6 (Abst.)
Skeletal open bite
A clinical assessment of the Active Vertical Corrector: A nonsurgical alternative for skeletal open bite treatment (Dellinger). 1986; **89**:428-37 (Clin. corner)
What is skeletal open bite? 1986; **89**:176 (Abst.)
Skeletal pattern
Computer-aided modeling in the assessment of the biomechanical determinants of diverse skeletal patterns (Haskell et al). 1986; **89**:363-82
The effect of two contrasting forms of orthodontic treatment on the facial profile (Looi and Mills). 1986; **89**:507-17 (Special art.)
Light-wire treatment of a Class II, Division 1 subdivision malocclusion (Kelly). 1986; **89**:223-7 (ABO case rep.)
The morphology of the potential Class III skeletal pattern in the growing child (Williams and Andersen). 1986; **89**:302-11
Relationship of skeletal pattern and nasal form (Robison et al). 1986; **89**:499-506
Variations in skeletal and dental patterns in patients with structural and functional alterations of the temporomandibular joint: A preliminary report (Stringert and Worms). 1986; **89**:285-97
Skeleton; *see also* **Skeletal pattern**
Reduction of deep overbite and associated changes in the facial skeleton (Lawrence). 1986; **89**:529 (Abst.)
Skull
Evaluation of intrusive mechanics of the type "segmented arch" on a macerated human skull using the laser reflection technique and holographic interferometry (Dermaut and Vanden Bulcke). 1986; **89**:251-63
Inital displacements and variations of eight human child skulls owing to high-pull headgear traction determined with laser holography (Kragt et al). 1986; **89**:399-406
Soft tissue
Moire topography of the face: Its application in measuring soft tissue asymmetries. 1986; **89**:177 (Abst.)
Speech
The effects of orthognathic surgery on speech production (Ruscello et al). 1986; **89**:237-41
Stainless steel
Comparison of bending and tension tests for orthodontic wires (Asgharnia and Brantley). 1986; **89**:228-36
Statistics
Relationship of skeletal pattern and nasal form (Robison et al). 1986; **89**:499-506
Statistical evaluation of torque angles in reference to straight-wire appliance (SWA) theories (Vardimon and Lambertz). 1986; **89**:56-66

Stereophotogrammetry
Roentgen stereophotogrammetry for analysis of cranial growth (Selvik et al). 1986; **89**:315-25
Sterilization
Upgrading sterilization in the orthodontic practice (Mulick). 1986; **89**:346-52 (Special art.)
Morris M. Stoner (1919-1985)
Morris M. Stoner (1919-1985) (Superstine and Stoner). 1986; **89**:523-4 (In memoriam)
Straight-wire appliance
Statistical evaluation of torque angles in reference to straight-wire appliance (SWA) theories (Vardimon and Lambertz). 1986; **89**:56-66
Syndrome
Dentists found at small risk to AIDS: LA task force. 1986; **89**:79-82 (Guest editorial)

T

Temporomandibular joint
Association between tooth loss and TMJ dysfunction (Zwemer). 1986; **89**:447 (Abst.)
Malocclusion associated with temporomandibular joint changes in young adults at autopsy (Solberg et al). 1986; **89**:326-30
Observer performance in assessment of condylar position in temporomandibular joint radiograms (Zwemer). 1986; **89**:526-7 (Abst.)
Symptoms of TMJ dysfunction: Indicators of growth patterns? (Zwemer) 1986; **89**:446-7 (Abst.)
Variations in skeletal and dental patterns in patients with structural and functional alterations of the temporomandibular joint: A preliminary report (Stringert and Worms). 1986; **89**:285-97
Tension test
Comparison of bending and tension tests for orthodontic wires (Asgharnia and Brantley). 1986; **89**:228-36
Teratology
Issues and reviews in teratology (vol. 2) (Harbison). 1986; **89**:176 (Book rev.)
Tissue reaction
Tissue reaction following application of extrusive and intrusive forces to teeth in adult monkeys (Melsen). 1986; **89**:469-75
Titanium
Comparison of bending and tension tests for orthodontic wires (Asgharnia and Brantley). 1986; **89**:228-36
Tongue
An in vitro investigation of lingual bonding. 1986; **89**:529 (Abst.)
Tooth loss
Association between tooth loss and TMJ dysfunction (Zwemer). 1986; **89**:447 (Abst.)
Tooth movement
Activation of the vascular system: A main mediator of periodontal fiber remodeling in orthodontic tooth movement (Rygh et al). 1986; **89**:453-68
The effect of gingival fiberotomy on the rate of tooth movement (Tuncay and Killiany). 1986; **89**:212-5
The effect of indomethacin (an aspirin-like drug) on the rate of orthodontic tooth movement (Chumbley and Tuncay). 1986; **89**:312-4
Toothbrush
Toothbrush resistance and fluoride retention of sound, etched, fluoridated, and remineralized bovine enamel (Valk et al). 1986; **89**:298-301
Topography
Moire topography of the face: Its application in measuring soft tissue asymmetries. 1986; **89**:177 (Abst.)
Torque angle
Statistical evaluation of torque angles in reference to straight-wire appliance (SWA) theories (Vardimon and Lambertz). 1986; **89**:56-66
Traction
Inital displacements and variations of eight human child skulls owing to high-pull headgear traction determined with laser holography (Kragt et al). 1986; **89**:399-406
The surgical exposure and application of direct traction of unerupted teeth (McDonald and Yap). 1986; **89**:331-40
Transplant
Influence of orthodontic treatment on root development of autotransplanted premolars (Lagerström and Kristerson). 1986; **89**:146-50
Trauma; *see* **Injury**
Treatment planning
Differential diagnosis and treatment planning for the adult nonsurgical orthodontic patient (Alexander et al). 1986; **89**:95-112

U

Unerupted tooth
The surgical exposure and application of direct traction of unerupted teeth (McDonald and Yap). 1986; **89**:331-40
Upper airway
Upper airway pressures during breathing: A comparison of normal and nasally incompetent subjects with modeling studies (Hinton et al). 1986; **89**:492-8

V

Vascular system
Activation of the vascular system: A main mediator of periodontal fiber remodeling in orthodontic tooth movement (Rygh et al). 1986; **89**:453-68
Effects on bone vascular interruption turnover and morphology in isotope-prelabeled rats (Zwemer). 1986; **89**:526 (Abst.)
Vascular reactions during electrical stimulation: Vital microscopy of the hamster cheek pouch and the rabbit tibia (Zwemer). 1986; **89**:527 (Abst.)
Videofluorography
Masticatory muscle activity and hyoid bone behavior during cyclic jaw movements in man (Pancherz et al). 1986; **89**:122-31
Visible light–cured resin
An in vitro evaluation of a visible light-cured resin as an alternative to conventional resin bonding systems. 1986; **89**:268 (Abst.)

W

Wire
Comparative friction of orthodontic wires under dry and wet conditions (Stannard et al). 1986; **89**:485-91
Comparison of bending and tension tests for orthodontic wires (Asgharnia and Brantley). 1986; **89**:228-36
Light-wire treatment of a Class II, Division 1 subdivision malocclusion (Kelly). 1986; **89**:216-22 (ABO case rep.)
Localized, transverse, flexural stiffness of continuous arch wires (Schaus and Nikolai). 1986; **89**:407-14

X

X-ray; ***see also*** **Radiography**
Absorbed doses in the craniofacial region during various radiographic and radiotherapeutic procedures (Zwemer). 1986; **89**:527-8 (Abst.)

Y

Young adult
Malocclusion associated with temporomandibular joint changes in young adults at autopsy (Solberg et al). 1986; **89**:326-30

Z

Zinc phosphate
In vitro comparison of zinc phosphate and glass ionomer cements' ability to inhibit decalcification under orthodontic bands. 1986; **89**:528 (Abst.)
